

The 5S'

5S is a basic housekeeping discipline and a foundation of continuous improvement in manufacturing and service environments. Implementing 5S will help your organisation improve Productivity, Quality, Cost, Delivery Performance and Safety.

5S requires a mindset shift in the team and therefore improvements should be carried out by the team. The prime reason for 5S is to enable standard work and therefore continuous improvement to take place.

Combining theory and a practical exercise designed to provide an immediate return on your investment by improving productivity, quality, cost, delivery and safety through the introduction of the 5S system of workplace organisation to your company.

Pragmatique have run 5S workshops as a foundation to Lean programmes or as a single event to tackle a specific issue in both factory and office environments. 5S is a structured approach to maintaining a clean and safe environment.

Our consultants provide an immediate positive impact on the participants workplace saving you time and money immediately, a typical workshop will produce a 5:1 ROI. Unlike other workshops we ensure sustainability is supported by our two tier audit system.

Duration

The 5S workshop is a 1 day workshop split into theory and practical sessions.

AM:

- The 5 Steps of 5S.
- Roles & Responsibilities of the team
- Tips for successful implementation

PM:

- Practical Exercise
- How to maintain momentum
- How do you measure success

Deliverables

- An understanding of the 5S approach to workplace organisation
- The roles and responsibilities necessary for successful implementation
- 5S Audit sheets and measurement tools so you can measure success and communicate what is needed to your team
- An implementation checklist so that you can successfully deploy 5S in your organisation
- A practical exercise to kick-start 5S

Who should attend?

People from across the organisation will benefit from this workshop, whether you are responsible for improving safety, productivity or delivery performance. 5S is the foundation for improvement activities, and this workshop will give you the knowledge and techniques so that you know how to have a place for everything and everything in its place.
